REVOLUTIONIZING TEXTILES FOR FUTURE

We are ONE
Yet we are everywhere

THE COLOSSUSTEX LOGO

The zest and passion represented by the red hue blends with the composure of blue and creates a warmer and encouraging appeal. Holistically, the logo helps its viewer envision a brand that supports vigor but with order and coherence.

The logo has presence of three auspicious numbers-888 in the three S inscribed in the font. The digit eight when written thrice represents infinite fortune and prosperity. We wish to harness the power of infinite vigor and potential Universe has in store for us to claim global markets over decades and build a brand of the millennia.

Collectively, our logo represents synergies and infinity. Our exponential growth is facilitated by the three channels i.e trade, agencies and services. With every year that passes by, we wish expand into the realm of prosperity and observe infinite progress and development.

The rare ends of our typography have upward accents that promise adroitness and constant achievement by gaining efficient momentum.

At Colossustex, we believe that trustworthy relationships are at the heart of a successful business venture. Our logo depicts a loop which has seamless depth and represents a complete virtue of optimum transparency. Along with being a reliable source of trade, we are also a service provider that celebrates the creative spirit with a meticulous approach.
