GLOW YARN

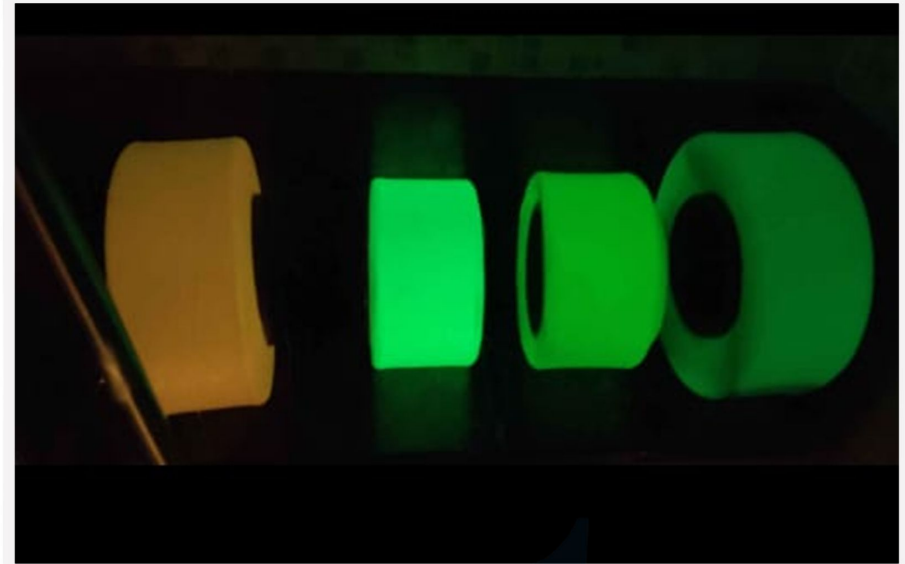

Glow yarn is a revolutionary luminous filament yarn, developed by mixing, melting and extruding Polyester chips with photoluminescent pigment.

Glow yarn luminescent material is non-toxic, harmless and free from any harmful substances. Glow yarn offers unlimited applications for embroidery or sewing thread, weaving, garments, shoes, ropes, straps, strings, tents, beads, buttons, electric sign boards and even hair spray and nail enamel.

Benefits of Glow in The Dark Pigments

Out of all the benefits of these amazing glow in the dark pigment powder. The ones which will definitely interest you are:

1. These glow colours are completely safe and appropriate for use in any item.
2. You won't need any electrical supplement for using this powder. It will make you absolutely free from the mess of wires and batteries.
3. The most surprising part is that this wonderful and attractive material is maintenance-free.
4. Phosphorescence is not a radioactive material and hence provide no chemical reaction to the external environment.
5. You would stay assured with its security as the material is not at all flammable, hence there is no chance of catching fire by it.

Advantages

- Easier heat stabilization
- Better crimp and tensile properties
- Raising bending and shear rigidity
- Good adhesion
